Senate Bill 146 Sponsor: Sen. Heather Steans (D-Chicago)

House Bill 1091 Sponsor: Rep. Elaine Nekritz (D-Des Plaines)

What is the purpose of the PPP Act?

The Public-Private Partnerships (PPP) for Transportation Act will promote the sound development and operation of transportation facilities in Illinois, by authorizing public-private partnerships for the construction of new transportation infrastructure projects and limiting the lease of existing infrastructure assets. Authorizing public-private partnerships will allow Illinois to seek new sources of investment capital and more efficiently deliver infrastructure improvements, to improve our transportation system to better serve the needs of Illinois residents and businesses.

“Tolling, pricing, and public-private partnerships present effective strategies on their own. But when they’re linked, they offer enormous opportunities to address the transportation challenges facing our country.”

Victor Mendez, FHWA Administrator, U.S.DOT

The Act will cover all transportation infrastructure under the jurisdiction of the following:

Airports owned and operated by an airport authority created and established under the Airport Authorities Act.

- The Commission on Government Forecasting and Accountability will conduct an independent review of all project proposals prior to final approval of a public-private partnership to ensure it serves the public’s interest.
